

Shoe Covers

Have you ever had your shoes stained green when cutting the lawn? Ever had to go into the garden and had to go to the trouble of changing your shoes, or worse, gone out in good shoes and ruined them? Ever turned up to watch a match or outdoor event only to realise your shoes will be covered in mud and that you don't have a spare pair?

Tidi Shoe Covers solve these problems. They go on easily over your shoes and close tightly with velcro straps to keep your shoes clean and dry. Shoe Covers come in two sizes so they'll completely cover almost any shoe. They're made from a waterproof material and the soles are extra tough and durable. When not in use, they roll up neatly together to store away. Keep Shoe Covers in your utility room, next to the back door or in your car so that they're always there when you need them.
