"It's all in the name..."

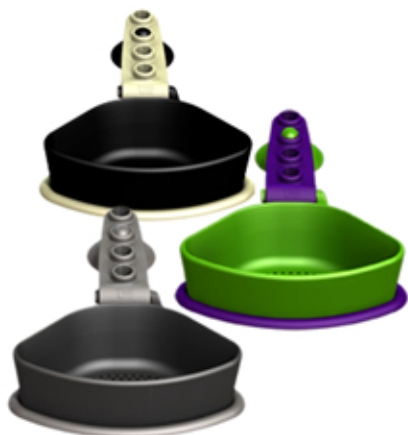

The Sink Bin

This unique and patented product is the solution to blocked kitchen sinks all over the world

Left over cereal, dinner waste and tea bags are poured/placed in the Sink Bin, allowing any liquids present to flow through the allocated holes and down the drain while any excess solid waste remains in the Sink Bin, separating liquids from solids.

Installation takes just seconds by means of a specially designed suction cup.

The Sink Bin comes with a stylish lid to hide any waste, which cleverly attaches to the base of the product preventing any dripping when taking it from sink to rubbish bin for emptying.

Product dimensions: H 100mm x W 145mm x D 52mm
 Capacity: 1 Litre
 Box Dimensions: H 175mm x W 185mm x D 57mm
 Carton dimensions: H 210mm x W 355mm x D 240mm
 Product Colours: Classic: 2 tone grey, Country: Cream and black. Contemporary: Green and purple
 Country of manufacture: China

Materials: ABS, silicone
 Recyclable: Yes
 Packaging: PET clamshell
 Recyclable: Yes
