The Foldable

Travel Hanger (2 pack)

The Scene: You are running late for an important meeting. You run out the front door, get to the car and realise that you have forgotten the hanger for suit jacket. So you must run back inside up the stairs, find a hanger and then back to the car again, all the while making you even later than before.

The solution is simple...The Travel Hanger. It folds away into a neat, compact size which fits perfectly into the glove compartment of your car and is always on hand to hang your shirt, jacket, dress, etc. in the back of your car.

The Travel Hangers are perfect for taking on holidays or when travelling by train, bus, plane, etc.
